

ICM2012 Poster Presentation Guideline

1. Abstracts scheduled for the poster session are grouped by topic as listed in the program book.
2. The dimensions of the poster are **1,000 mm width by 1,500 mm height**. It would be no problem to make small changes to these.
3. Poster presentations will consist of well-prepared visual materials about the work posted on a designated board (your presentation code will be stated), with the author available to present details and answer questions during the selected poster sessions.
4. Authors are expected to bring their pushpins or tapes to affix the poster on the board. A small number of them will be prepared as well at the desk in the hall.
5. All posters will be eligible for nomination for a best poster award in each day. They will be reviewed by session chairs during the 2 hours of each poster session, which means that authors should be present during that time.

POSTER SCHEDULE

Posters will be presented each day. Every poster has to be removed after the presentation time. Any remaining posters will be discarded after that time.

All presenters are requested to affix their poster and remove them after the presentation date (**July 9, 10, 12, 13 — 4 days**). The secretariat will not be held liable for any posters lost or damaged.
